Khadi Development (1948) Department

M/8 SERIES.

G O No. 450

Dated 15 7 48

[Despatch Abstract.]

Khadi scheme- Intensive Part- Progress report for the quarter ending 30-6-48- Papers recorded.

Rc. No. 155867. K.8.47.

Office of the
Provincial Textile Commissioner,
Egmore, Madras, 17-11-1947.

From

V.S. Hejmadi Esq., I.C.S.,
Provincial Textile Commissioner.

To

The Secretary to Government,
Firka Development Department,
Fort St. George, Madras-9.

Sir,

Sub: Hand-spinning- Khadi Scheme- Intensive part- Progress report for the quarter ending 30-9-47- Submitted.

Ref: Government Memorandum No. 1732/F.D.II/47-1 dated 24-10-47.

Statements showing the work turned out in the seven Intensive Khadi Centres during the quarter ending 30th September 1947 are appended to this report.

2. Out of the 34 sub centres opened up to the quarter ending 30-6-47 (vide paragraph 2 of my letter Rc. No. 115069/K.47 dated 12th August 1947 sent in reply to Government Memorandum No.535.F.D. II . 47/1 dated 18-7-47) only 33 sub centres functioned in the quarter under review, the sub centre at Patangi having been abolished on the exclusion of the 4 villages in Trichinnpoly district from the Puliyankurichchi Centre.

3. Cotton: (vide statement No. II)

The distribution of cotton in Vellakkovil, Kotauratla and Payyanur Centres is satisfactory. The effect of the elimination of the private producers and dealers in Khadi recently ordered has yet to be felt.

4. Timber: Out of the quantity of 14,000 cubic feet of wood released by the Forest Department and sawn to charka sizes by a sawmill proprietor at Kallai, Timber wss supplied to the Centres in the quarter as follows:--

Name of the Centre.	Number of charkas.
1. Kotauratla	500
2. Puliyankurichchi	500
3. Avanashi	200
4. Guruvareddipalem.	500

Despatch instructions have been issued for the supply of 1000 vertical charka parts to Erragondapalem Centre. The instructions issue s for the despatch of 1000 certical charka parts to Vellakkovil Centre were cancelled since the Honorary Regional Khadi Officer, Tamil Nad intimated that the Centre had no godown facilities to store the parts. No iron parts for charkas could be distributed to the Centres in the quarter as Messrs. Strathie Co-operative Workshops Limited could not manufacture the parts for want of the necessary raw materials. The All India Spinners Association has been supplying the Centres with as many charkas and other spinning accessories as they could spare. There is, however, no great demand for the charkas in the Centres and the parts already distributed together with the charkas made available by the All India Spinners Association are being absorbed but slowly.

5. Yarn (vide statement No. III)

Purchase of yarn in the Centres has shown a slight increase in the current quarter. The quantity purchased is appreciable in Vellakkovil, Avanashi, Kotauratla and Payyanur Centres. The issue of yarn to weavers is satisfactory in Avanashi and Payyanur Centres.

6. Khadi (Vide Statement No. IV).

The production of cloth in the Centres has shown an increase of only about 30,000 yards in the current quarter. Increased production has been recorded in Vellakkovil, Avanashi, Kotauratla, Guruvareddipalem and Payyanur Centres while there is a slight decrease in the other two Centres.

The sale of cloth in the current quarter has shown an increase of 53,000 yards over the figure of the previous quarter. The increase is mainly due to the fact that some quantities were sold to the All India Spinners Association for the manufacture of National Flags and towards the yarn stocks originally delivered by the Association when the centres were taken over by the Government. The disposal of Khadi in the three Centres of the Andhra Area is particularly low. The Centre Khadi Officers have been instructed to concentrate on the production of dhoties, sarees and other varieties which find a ready sale and to avoid the production of other varieties which do not find ready sales. The Honorary Regional Khadi Officers report that the Deepavali and Pongal Seasons are the heaviest seasons for Khadi consumption and that the problem of the disposal of khadi will not present any difficulties.

The Honorary Regional Khadi Officers, Tamil Nad and Andhra Area state that the scheme of collecting deposits from spinners towards the value of khadi required by them and by the members of their families could not be brought into effect hitherto on account of the activities of the uncertified dealers and producers. Now that these dealers and producers are leaving the field, the Honorary Regional Khadi Officers are hope ful that the system can be enforced effectively and that the progress in the disposal of the Khadi produced will show a marked improvement.

7. Training Schools:- An abstract of the number of workers trained in the several khadi courses is given in statement No. V. As it has not been found possible to absorb the trainees in the Intensive and Extensive Khadi areas, I have decided to close down all the Schools for the special Accelerated course as soon as the current session is over. The re-opening of the Schools will be considered when there is need for more workers.

The Bunayi Karyakartha course has not yet been started at Tirupur, while only five students are undergoing training in the school at Masulipatam. Five more candidates have been allowed to be admitted in the present session of the course at Masulipatam.

8. Subsidy: The Government have accepted my proposal to pay subsidy at nine pies per hank:

(i) to those spinners who periodically deposit a portion of the yarn spun by them or by members of their families with the Centre Khadi Officer for the purpose of obtaining c loth in e xchange a after a sufficient quantity has accumulated; and

(ii) to other spinners who are prepared to give at one and the same time all the yarn required for weaving the cloth required by them provided the Centre Khadi Officer or the Sub Centre Manager is satisfied that the yarn produced was really spun by the person producing it by members of his family and subject also to the condition that spinner constituting a family will not be eligible for subsidy on more than 150 hanks a year- vide G.O. Ms. 2857 Public (Firka Development) dated 15-9-47. The revised subsidy rules have been put into force from 1-10-1947. The effect of the revised rule can be gauged only in the beginning of the next year.

9. Village Khadi Committees: Village Khadi Committees were formed in Guruvareddipalem and Kotauratla Centres in the current quarter. The Centre Khadi Committees at Puliyankurichchi and Avanashi have not yet finalised their proposals for the formation of these Committees.

10. The Madras Khadi (Control) Order, 1947:- Orders of Government for the elimination of uncertified dealers and producers from specified areas were re-ceived at the end of September 1947. A list of the villages in which private producers and dealers will not be permitted to do business in Khadi has been published at pages 895 t

900 of Part II of the Fort St. George Gazette dated 11-11-47. So far, about 7,000 licenses have been issued in respect of applications received from 22 districts and there are about 3,000 applications yet to be dealt with. Applications from dealers in the areas in which private production is not allowed, have been rejected. In the Tirupur areas, some weavers who were previously working under the private producers were thrown out of employment as a result of the elimination of private producers from the area. Steps have been taken to give employment to these weavers by the issue of temporary ration cards for mill yarn.

11. General. The progress in the quarter under review shows but a small increase over that achieved in the previous quarter. With the elimination of the private merchants from the areas better progress is hoped for in future.

Sd.
for Provincial Textile Commissioner

NOTE FILE:

Firka Development Department. II

Sub: Khadi Scheme - Intensive part- Progress report for the quarter ending 30-9-47- Submitted.

Ref: From the P.T.C. Rc. No. 155867 K. 8/47 dated 17-11-47.

To R.F.D.O.

The P.T,C has submitted the quarterly progress report for the period ending 30-9-47 as laid down in para 10(3) of G.O. Ms. No. 4678 Dev. dated 23-12-47. (For brief note regarding the main features of the Intensive khadi scheme, please see p. 6 n.f. of. L.F.

It is reported that during the quarter under review Village khadi committees were formed in Guruvareddipalem and Kotauratla centres while Centre Khadi Committees of Puliankurichi and Avanashi have not yet finalised their proposals for the formation of Village khadi committees. The P.T.C's report is silent about the work of the Village khadi committees in the other three centres namely, Vellakoil Erragondapalem and Payyanur. It is therefore permissible that the propaganda part of the khadi scheme has not yet gained momentum especially in view of the concluding remarks of the P.T.C. to the effect that the progress in this quarter had shown but a small increase over that achieved in the previous one.

It is reported that during the 2nd quarter all the ten schools intended to impart training in the accelerated course of spinning, were in full swing and that in conformity with the suggestions of Sri Jajuji of the A.I.S.A., the P.T.C. had already proposed to abolish four or five schools immediately after the 2nd and 3rd course was over. But now the reports that as all the candidates who successfully undergo the training are not abosorbed in the intensive and extensive khadi areas, he has decided to close down all the schools, as soon as the current session is over. There is however a proposal to terminate the services of peons attached to F.D.Os and appoint people who have undergone training in accelerated course instead giving them the designation of Grama Sevakas. If this proposal rectifies the unemployment problem among the trained personnel will be solved to some extent and the stage will be set to invite the remarks of the P.T.C. whether it would be worthwhile to continue the five schools. The Bunayi Karya Kartha course has not yet been started at Tiruppur. Five more candidates have been reported to have been admitted in Masulipatam schools.

It is seen from para 4 of the report that Kotauratla, Puliankurichi and Guravareddipalem each have been supplied with 500 charkas while Avanashi has been supplied with 200 charkas, and arrangements have been made for the supply of 1000 vertical charkas parts and it is also seen that the A.I.S.A is also helping in the matter of supplying charkas and other spinning accessorites.

However it is reported that there is no great demand for charkas. In the 3rd quarter no new subcentre has been opened and on the other hand one of the 34 of subcentres opened in the 2nd quarter was abilished as a result of the exclusion of 4 villages in Trichy district from Puliankurichi centre.

The following tabular statements regarding cotton, yarn, cloth will show the progress made in the 3rd quarter when compared with the 2nd quarter:---

Cotton distribution:

Cotton distribution:

Centres.	Issued to spinners 2 nd quarter.	3rd quarter.	Balance.
Vellakoil	10450 lbs.	11314 lbs	1564 lbs.
Puliankurichi	2715	2158	5418
Avanashi	2952	3330	1167
Kotauratla	11394	12836	9400
Guravareddipalem	1142	4514	5900
Erragondapalem	373	272	2352
Payyanur	6646	7249	12770

Stock now with Agricultural Demonstrator, Tiruppur comes to 98517 lbs as against 39176. No cotton was purchased in Puliankurichi, Guravareddipalem and Erragondapalem centres the purchase at Payyanur was the heaviest.)

Yarn purchases and distribution:

	Bought from spinners		Issued to weavers.		Balance.
		3rd qr.	2ndQr.	3rdqr.	
Vellakoil	20811lbs 2ndqr.	21613lbs	12346	14708	16124
Avanashi	19288	18361	13827	16698	6927
Puliankurchi	5289	6041	3118	2974	6740
Katauratla.	12390	12408	5955	9030	9811
Guravareddipalem	478	2091	350	718	1486
Erragondapalem	31	33	292	4	69
Payyanur.	6220	6848	5228	5939	2441

Purchase of yarn has shown a slight increase in the current quarter The quantity purchased is appreciable in Vellakovil, Avanshi, Kotauratla and Payyanur centres. The issue of yarn to weavers is satisfactory in Avanshi and Payyanur centres.

Cloth produced:

	produced		Issued		Balance.
Vellakoil	29685	39652	11548	24679	54294
Avanashi	39347	46343	6071	28319	71181
Puliankurchi	9618	9537	3140	13252	11040
Kotauratla	9891	20718	423	5460	24786
Guravareddipalem	1098	1914	21	211	2804
Erragondapalem	1059	17	438	353	917
Payyanur.	16267	18540	10576	12466	22515

(Continued....

Cloth woven by self-spinners:

	2nd Qr,	3rd Qr.
Vellakoil	1626 yds.	1070
Avanashi	178.	420
Kotauratla	7532	100
Puliankurchi	.10	4400
Huravareddipalem	2035	27000
Erragondapelem.	36910	55000
Payyanur.	nil	210

The production of cloth in the centres has shown in increas of only about 30,000 yards in current quarter. Increased production has been recorded in Vellakoil, Avanshi, Kotauratla, Guravareddipalem and Payyanur centres while there is slight decrease in the other two centres.

The sale of cloth in the current quarter has shown an increase of 53,000 yards over the figures of the previous quarter. The P.T.C. hopes that the balance stock on hand will be speedily disposed off in view of the Pongal season when khadi consumption is the heaviest.

The subsidy has been liberalised as detailed in paragraph 8 of the report on p. 7 cf. but it is too early to know the effect of the revised rules.

The total receipts for the 3rd quarter ending 30-9-47 come to 1,67,421-13_0 while the total expenditure comes to 4,25,876/- the expenditure representing the money spent on purchase of implements, cotton, yarn etc, which will be recouped by sale.

It is pointed out at p. 11 nf. of L.F. below the effective implementation of the Government's policy in regard to the khadi scheme has commenced only from the first week of October. The private dealers are yet to be eliminated from the intensive and their belt areas, and it is just likely that time for winding up their business will be given upto 15_1-48. Only when they completely leave the scene, the intensive khadi scheme can operate with great effect. In this view the progress in the first quarter of 1948 can alone constitute a good test of the success of the scheme.

The file may be circulated to H.Pr. for perusal. This will also be placed before the Provincial Firka Development Board when it meets next)

X on p 3 nf.

When was the subsidy enhanced? Please put up the ~~conn~~ connected papers.

The Routine note below may kindly be perused.

P.F.D.O. may consider the desirability of stopping this subsidy for exchange of yarn for cloth.

With reference to minutes of H. Pr. at 'Z' above the following note is submitted.

The revised system of paying subsidy does not involve any additional expenditure to Government. On the other hand there is a slight reduction in that only 0-3-9 per yeard will have to be paid now instead of 4 annas per yard as contemplated in the original scheme. Further it may be said in this connection that although the view prevailed that money spent on subsidy should be considered as loss to the Government yet taking the scheme as a whole it appears that the subsidy paid will alone constitute the surest index of the progress of the scheme. Subsidy has been devised with a view to encourage self spinning and is strictly related to the hanks of genuine khadi yarn produced by the self spinner or the members of his family. In fact the subsidy paid to self-spinner will go a long way in helping the spinner

to pay a portion of the weaving wages to the weaver. Thus it has the double advantage of giving fillip to self-spinning and of helping the weavers to get weaving wages indirectly from the Government. In this setting the expenditure shown in the book under this item need not necessarily be considered as a loss to the Government. It may also be mentioned in this connection that it has since been decided by A.I.S.A. at the Conference held at Sewagram on the 19th and 20th March '48 that 40% of the value of yarn brought by self-spinners should hereafter be taken as deposits and no cash should be paid. Under the new system the Government centre will receive 40% of the self-spun yarn and d eposit it in the name of the spinner for getting the same converted into cloth for the use of the spinner for which the Government will have to pay subsidy. The rest 60% yarn will be purchased for cash at the rate of 3 as per hank and no subsidy will be given for this amount of yarn that is purchased by the Centre from the spinners.

R.F. (N).

This file dealing with the progress report for the 3rd Quarter of 1947 in respect of the Intensive Khadi Scheme may be closed after perusal by Finance. As the progress report from the inception of the scheme upto 31-12-47 will be placed before the Provincial Firka Development Board when it meets again there does not appear to be any necessity to place this before the Board.

This report need not be placed before the next meeting of the Provincial Firka Development Board. This may be closed after perusal by Finance.

Finance

The file deals with review of the progress report on the intensive part of khadi scheme submitted by the P.T.C. for the quarter ending 30-9-47 in accordance with the instructions laid down in para 10(3) of G.O. Ms. No. 4678 Dev. dated 23-12-47. It has been stated by the P.T.C. that the progress in the quarter under review shows but a small increase over that achieved in the previous quarter and that with the elimination of the private merchants from the areas, better progress can be hoped for in future. The total receipts for this quarter ~~for this quarter~~ come to Rs. 1,67,421-13-0 while the total expenditure comes to Rs. 4,25,876-13-1, including the money spent on the purchase of implements cotton, yarn etc, which will be recouped by sale.

2. The case may be returned to Firka Development after perusal. H.M. (Fin) may see.

To A.S.O.

Notes from p 1 ante and the Finance Departments note above may be perused. Finance suggest that the case may be circulated to H.M. (Fin) also. As the progress report dealt with in this file related to 3rd quarter ending 30-9-47 it does not seem necessary to circulate this to H.M. (Fin) as suggested by Finance. For orders The annual progress report from the inception of the scheme upto 31-12-47 and the first quarter ending 31-32-48 ~~and the~~ will be deparately circulated to H.M. Fin.. If A above is approved, these papers may be recorded.

A. above is approved.
